Dear Families,

Holidays 2019

Hip hip hooray for the holidays! It's our favorite time of year—a season of family gatherings, good cheer and warm wishes. We are excited to share these science goodies with your family. Perfect for stocking stuffers or holiday gifts!

Everything in our flier is designed to excite your child's curiosity about science and the world around us. Simply choose the goodies, fill out the order form on the back, and return it to your child's teacher by the due date. Be sure to enclose your payment (cash or check) with your order. In a few weeks, your child's teacher will receive your class order... and then the fun begins!

Remember, your purchase helps bring more hands-on science into your child's classroom. Thank you for shopping with us!

Make Your Own Slime!

Everything you need to make a half-ounce of perfect, gooey slime! The **Glowing Slime Kit** comes with a capsule of **Glow-in-the-Dark Pigment**. Just hold it under a light (or outdoors) to activate the spooky glow.

- SL-1** Slime-Making Kit **\$3.95**
- SL-2** Glowing Slime-Making Kit **\$4.95**

Tint your slime with food coloring!

Super Cool Slime

We all know that slime is cool, but this slime is actually chilly to the touch! Each flask contains a generous blob of multi-colored, shimmery goo that breaks when you pull it apart, but also flows like a liquid. Why does it feel so cold? Is it a solid or a liquid? Comes in assorted colors. Non-toxic. ≈3 fl. oz.

- SL-500** **\$3.95 each**

**TOP
KID
PICK!**

In the light...

In the dark!

Shimmer Putty Trio

Our Shimmer Putty Trio bounces like a super ball, flows like slime, shears when pulled... and it **sparkles!** Each plastic jar contains three different colored portions of slippery, shimmery, scented, silicone-based putty. Colored layers are separated by plastic caps. 4.5 oz. Colors may vary.

- SL-510** **\$2.95**

Melting Snowman

Build your snowman, decorate him, and then wait as he melts into a puddle of goo. This special white bouncing putty has the properties of both a solid AND a liquid. You can rebuild your snowman again and again—without the risk of frostbite! 50 g of putty.

- PUT-300** **\$8.95 each**

Small Balancing Bird

Our colorful little bird balances on anything—your finger, a pencil point... The center of mass (or center of gravity) is located beneath the tip of the beak. Each comes with a stand. ≈3" wingspan. Colors may vary.

- CTR-250** **\$1.50**

Choositz Decision Balls

These two black rubber balls look the same but WOW, are they different! When dropped, one ball bounces while the other hits the surface and stops right there. What else can you observe? Includes two 1.5" dia. balls.

- SS-3** **\$7.75 / pair**

Centripetal Spinner

This lovely plastic wand reflects a dazzling rainbow as it spins. Twirl the stick and because of inertia the thin ribbons spread into a bubble or "snowman" shape. The faster you spin, the wider the bubble becomes! It can be gently twisted by hand to make a delicate "flower" that neatly tucks itself into a tight ball. Endlessly fascinating! 9" wand.

- PHY-250** **\$3.95**

Drinking Bird

One of our most beloved science toys! You'll be fascinated by this cheerful bird, who will dunk its head into a glass of water for days at a time! What's the secret? Each glass bird comes with an explanation and suggested experiments. Colors may vary. 6" tall. *Caution: fragile.* Ages 7+.

- DB-100** **\$5.95**

Newton's Kinetic YoYo

Set these colorful plastic spheres in motion with a flick of your wrist. As the first sphere swings around, it stops and transfers its energy to the second sphere, forcing it to swing around. Can you get them to clack together above and below the handle? How long can you make the spheres clack together? Colors may vary. 8" handle. Ages 7+.

- PO-NE-100** **\$1.50**

Dropper Popper

Dropper Poppers are crazy fun! Just turn this rubber half-sphere inside out and drop it on the ground. The popper jumps up over five feet high! This cool toy is a great example of potential and kinetic energy. 2.25" diameter. Ages 7+.

- POP-100** **\$2.75 each**

Flowing Color Spectrum

Turn this clear tumbler over and watch as different colors of droplets float down. How many liquids are there? Why do the drops change shape as they fall? Can you make them drop faster or slower? Use this mesmerizing object as a visual timer, calm-down jar, or to sharpen your observational skills. Colors may vary.

DEN-445 \$6.95

Mini Lava Lamp

A geology experiment that's fun and informative. As you build your own mini lava lamp, you'll learn how magma moves under the Earth's crust. Ages 7+.

RM-700 \$9.95

Jellyfish Diver

Learn all about buoyancy and Archimedes' principle with the Jellyfish Cartesian Diver. Just squeeze the bottle to control the diver! 2" tall. Colors may vary. One diver per package.

CD-440 \$3.95 each

Periodic Table Jigsaw Puzzle

This puzzle, in the shape of Theodore Gray's famous photographic Periodic Table, contains 1,000 sturdy pieces. A great way to learn about the elements of the Periodic Table while having fun. 36" x 16" completed size.

PER-555 \$19.95

Magic Crystal Tree

Assemble your tree, add growing solution, and in just a few minutes you'll see the specially-treated paper branches begin to bloom with colorful crystals! Crystals continue to grow for hours. Includes one tree form, growing solution, and base. Tree measures 4" tall. Colors may vary. Ages 6+.

CRY-200 \$3.25

A SUPER hit!

ColorFlame Birthday Candles

Unlike anything you have seen before, the flames of these candles burn in brilliant hues of red, green, blue, orange, & purple! Created using 100% natural, nontoxic ingredients. Set of 12 candles and holders. 2.25" tall.

SPC-200 \$2.95

Rocks, Fossils, Minerals & Gemstones

Each set of 21 labeled specimens comes in a clear plastic display case (7" x 3.5") that can be opened for closer inspection. Perfect for a young collector! Use a Private Eye Loupe (page 4) to examine each sample's texture and color.

RM-800 Rocks, Fossils, Minerals & Gemstones of the US **\$8.95**
RM-810 Native Rocks - Foundations of the Earth **\$8.95**
RM-820 Natural Gemstones - Jewels in the Rough **\$8.95**
RM-830 Complete Set of Three **\$21.95**

RM-810

RM-820

Six Geode Slices

These colorful agate slices have been stained and polished to enhance their natural beauty. How many different layers of minerals can you see? You'll love these unique samples, $\approx 1/8"$ thick, 2-3" across.

RM-510 \$8.25 / six pack

Sandscape

It's fascinating to watch the eddy currents form by the flowing sand in a moving liquid! If you look carefully, you can even observe the fluid moving upward as everything else seems to be flowing downward. Colors may vary. 5.5" x 8".

DEN-440 \$12.95

Sealed Iron Filings

Hold a magnet beneath your iron filings in a sealed plastic case. See how they react and show magnetic fields. The magnetic field makes the filings stand up! Mess free! Ages 5+. 3.7" x 2.7".

M-610 \$2.95

Magnetic Marbles

These aren't ordinary marbles—they're magnets! They attract and repel each other, making them interact in amazing ways. Try them with our Magnetic Wand! 20 per bag.

M-620 \$5.95

Magnetic Wand and Marbles sold separately.

Magnetic Wand

There's a magnet hidden inside this colored plastic paddle. What can you pick up with your wand? How many paper clips or Magnetic Marbles can you collect in a single swipe? Easy to clean, less chance of accidentally pinching your fingers. Colors may vary.

M-510 \$1.75

Sticky Stones

Don't be fooled by these normal-looking stones; they're magnetic! Build fun structures and explore the theory of magnetism at the same time. Includes 1/2 pound (10-20 stones).

RM-150 \$6.95

2 www.TeacherSource.com

TOP 10 PICK!

Tin Can Robot

Turn a metal can into a walking, wobbling, bugging robot! AA battery required. For ages 8+.

GRN-120 \$14.95

ScooterBot

With colorful chenille stems, wiggly eyes, and a toothbrush head body, our ScooterBots are as adorable as they are educational. What makes them go? A battery-powered pulsating motor causes the individual bristles (or legs) to vibrate and shimmy, sending the bot scooting across any flat surface. Kit contains all you need to create these mini-marvels, including instructions. Ages 8+.

Construct-A-Clock

Build a clock in just 10 minutes, wind it up and watch it run for over eight hours. No batteries required! 8" clock face.

TIM-100 \$15.95

Working Wood Catapult

Build your own miniature catapult—an ancient device used to hurl things through the air. This working model can be assembled in less than an hour (excluding the time it takes for the glue to dry). Learn about simple machines and levers! How far can things fly? 10" x 6" x 5". 7.5" arm. For ages 9+.

CAT-300 \$19.95

ROB-200 \$3.25 each

Plus-Plus

Each tube contains dozens of colorful jigsaw-shaped bricks that can be built into any form you can imagine. A perfect opportunity for open play. What will you build with these addictive bricks? Crafted in Denmark from BPA-free and phthalate-free plastic. Ages 5+.

CST-675 70 Piece Tube \$7.95
CST-680 240 Piece Tube \$14.95

Shark Tooth Stew

This pack contains more than 200 marine fossils. What will you find? Each kit contains shark teeth, sea urchins, manta rays, clams, ammonites (ancestors of snails), crinoids, and more! Free sorting chart online. Ages 5+.

RM-710 \$10.95

Polymer Snow Tube

Create a winter wonderland in seconds! Just add water and the little grains will absorb the water by osmosis and increase to 100 times their original size! As the water evaporates, they will shrink to their original size, ready to use again. Comes in a 5.5" plastic test tube. About 17 g.

GB-270 \$4.50

Hydrophobic Sand Tube

This amazing sand is dyed and coated to repel water, so it's always dry. It's hydrophobic (water fearing)! When submerged in water, the sand can be molded into structures. Simply separate from water to reuse! Colors will vary. Sand comes in a 5.5" plastic test tube. About 50 g.

MS-4 \$4.50

The SpillNot

Set a cup with liquid on the SpillNot base and give it a whirl! The liquid won't spill or slosh in the cup. The reason? Centripetal force and the basic laws of physics. You won't believe how useful—and cool—this gadget is!

PHY-300 \$12.95

Rattleback

A Rattleback is a colorful piece of curved plastic that seems to defy physics. Spin it clockwise and within a few seconds it will stop, and then begin spinning in the opposite direction! Wow! What happens if you spin it counter-clockwise? What if you tap one end while it's spinning? The Rattleback's unique design causes its energy to shift directions. 4" long. Colors vary.

SS-325 \$1.25 each

Mysterious Glowing Ball

This ball is DEFINITELY mysterious—especially in a darkened room. Hold it in your hand and it will glow with a white light. Now spin it around in a circle (using the attached tether) and suddenly you'll see red, blue, and green lights. Stop spinning and the light is white again. The secret is multi-colored LED lights inside the ball. Those colors, combined, appear to your eyes as white light when stationary, but they can be detected separately when in motion. 2.5" dia. Batteries are included.

OPT-500 \$6.95

UV Beads and Bracelet/Necklace Kit

Indoors these beads are white, but head outside and they'll instantly change to bright, bold colors! They return to white when you're back indoors. The secret is the invisible ultraviolet light emitted by the sun, 93,000,000 miles away. Great for learning about the power of UV light and the importance of sunscreen.

The bag of assorted beads contains about 250 color-changing ultraviolet beads. In the kit, you'll get 25 assorted UV beads and 1 yard of rawhide.

UV-AST 2 oz. Assorted Beads \$6.95
UV-KIT Bracelet/Necklace Kit \$5.95

Make your own personal UV detectors!

Best seller!

Flow Ring A super seller!

This mesmerizing toy is made from a single strand of flexible metal. It has been called a "4th dimensional Slinky." Get ready to be astonished as you watch this spherical toroid ring roll, bend, and flow. Folds flat and pops open into a 3D geometrical shape. Comes with a storage pouch.

PHY-265 \$8.95

Mini Fiber-Optic Light

Did you know light can bend? It does! Our 9" tall LED light has dozens of long fiber optic strands, producing a beautiful shimmering effect. Gently brush the fibers with your hand to make the light specks dance! Battery included. Colors may vary.

Turing Tumble

Build mechanical computers powered by marbles to solve logic problems. It's a mesmerizing opportunity to "peek under the hood" and discover how computers work. It is hands-on, fun, easy to learn, and suitable for anyone age 8 and above. Best of all, the logic is all right there in plain sight—no coding syntax, smart phones or tablets required! Perfect for learning engineering and computer science concepts. Ages 8+.

Brand new!

Smithsonian Magazine Overall Best STEM Toy 2018!

CST-550 \$69.95

Genuine Chocolate Covered Insects

Satisfy your sweet tooth with our chocolate covered insects! Each package contains six completely edible, farm-raised insects (three crickets and three beetle larva) dipped in rich, creamy chocolate. Yummy!

BUG-355 \$2.95 / pkg of 6

Though these contain no nuts, they are not manufactured in a nut-free environment.

A Delicious favorite!

Astronaut Ice Cream

Eat like an astronaut! This freeze-dried ice cream never melts... at least not until you put it in your mouth. You get three flavors—vanilla, chocolate, and strawberry. Break off a piece and share an out-of-this-world snack with your friends. The package contains information about the freeze-drying process. 4.25" x 1.5" x 0.75".

FD-100 \$3.75

Paper Balloon Paradox

A balloon made out of paper? Yes! Unfold it and spend a few minutes bouncing it in your hand. You won't believe your eyes as this crunchy, colorful balloon slowly fills with air. And what's going on with the hole at the center of the balloon? Air goes in... but doesn't escape unless you crush the balloon! ≈6" diameter. Colors may vary.

AIR-160 \$2.25 each

Dissolving Paper

This amazing paper dissolves in water. Dip it in hot or cold water and watch it disappear before your eyes! Can be used in most laser printers and copiers. After it's printed on, the paper will dissolve, but the letters will remain! Make your own alphabet soup! 8.5" x 11" sheets of paper. Ages 5+.

SM-515 \$7.95 / 15 sheets

The Private Eye Loupe

This high-quality jeweler's 5X magnifying loupe is perfect for looking closely at objects, and durable enough for young children. Use your loupe to check out bugs, leaves, your fingernail—anything you can think of!

EYE-231 \$3.95

Static Snowstorm Kit

Fill each plastic globe with small Styrofoam pellets that react when the globe is statically charged. Perfect for demonstrating that like charges repel and unlike charges attract. Easy to assemble and impossible to forget! Includes six plastic globe ornaments with caps, an ample supply of Styrofoam pellets, and instructions.

STC-160 \$7.95
